Subject: Re: Collapsable/Expandable Frame
Posted by mrjt on Wed, 05 Dec 2007 15:36:34 GMT

Sorry, both of those were really stupid bugs that I should have found (one was as simple as a misplaced bracket). I've fixed both issues.

Quote:I'm not quite done yet, because obtaining a look that is not ugly is hard.
I agree, which is part of the reason I didn't release a very good one. I've got one that looks ok in that my app but a general one is difficult.

I'll be happy to change chameleon interface if it would help, and add your skin if possible.

James
