First of all, SetCtrl(..., Ctrl *ctrl);

is deprecated and should not be used in any new code, in fact, it will likely be removed.

```
// Linux/xcode
#define DEPRECATED_FUNC __attribute__((__deprecated__))
// MSVC
#define DEPRECATED_FUNC __declspec(deprecated)
```

You might consider using of DEPRECATED_FUNC macro above to inform users about deprecated methods/functions.

It is more informative than just comments in the source code.

This post interests me, but I think is a little OT so I've created a new topic here:
