luzr wrote on Sat, 22 December 2007 17:13 Well, where can I get ZapfDingbats?

Mirek

I'm terribly sorry. Although I'm very sure that I got these fonts together with a (legally!) free application I can't tell with which one. And I can't send you these fonts as they are copyrighted.

So I'll try my best to debug the program myself hoping to trap the problem.

Any hint where to look and what to look for would be appreciated.

Anyway - thanks for being willing to help me.

Werner
