Also we may consider updating wiki to a new version(i guess there is not latest version installed).

Alas, webhosting used does not allow a more recent wiki...

 If Mirek don't respond to this message you may send a PM, see what he say about your suggestion and then please inform me to see what to do(i don't want to waste time with wiki if it isn't wanted).
Thanks. Have a nice day.

Wiki is OK. As long as it has some info
