looks like something got into webarchive:

[http://web.archive.org/web/*/http://www.vegachess.com/en/veg a5rr.htm](http://web.archive.org/web/*/http://www.vegachess.com/en/veg%20a5rr.htm)

edit: well, the screenshots are sparse, but if you dig into all dates, you will find some in big resolution too.

But backup it soon, the webarchive is not a very good backup in terms of images.
