nixnixnix wrote on Thu, 03 January 2008 19:15 Sorry Mirek, yes I'm talking about GridCtrl.

Daniel, I tried the FixedPaste and it prevents appending but still allows inserting. What do Appending(false) and Inserting(false) do?

Appending enables ability to add or to insert a row (available in popup menu and through keyboard shortcuts

Try ExtraPaste(false) to turn off the "paste as.." menu. Is that what you need? I can also synchronize it with Appending switch if you want.
