I've got simple case of using ArrayCtrl as list of check-values:

```
arrayCtrl.AddColumn().Ctrls<Option>();
```

```
arrayCtrl.Add(true);
```

```
arrayCtrl.Add(true);
```

```
arrayCtrl.Add(false);
```

I've got a column of checkboxes with no labels. Please tell how to set these labels for each control individually.

Manual didn't help me with understanding.
