Subject: window resized has no CALLBACK? Posted by bonami on Sat, 02 Feb 2008 02:44:14 GMT

only WhenClosed is TopWindow's CALLBACK. and then the other CALLBACK belonging to Ctrl, Action, seems relavant, but when i resize TopWindow, it is not called.

After reading Ctrl's document, i suppose Layout() is invoked when it is resized. Then do I have to reimplement TopWindow's Layout()?
