---

U++ says runtime requested to be terminated in an unusual way. so i suppose i fail to catch the exception. just click "listen", regardless of other input fields, to see this problem.

here's my functions,

Quote:main.cpp 475: func\_server(), should be caught at line 489

Quote:ezudp.cpp 196: serve(), should be rethrown at line 204

Quote:ezudp.cpp 56: relate(), exception thrown at line 96
