26?
Show: Today's Messages :: Unread Messages :: Show Polls :: Message Navigator

anyway, i dont like this part. What about put first line to left and second to right. And let it stay in different rows.

Thank you for the idea.
I don't like the Navigation menu layout either. That's why I've tried to make it less visible for the time being... The problem is that it is generated as text with tooltips and database variables for each user and the original formatting is quite complicated comparing to other changes I did. But I'll try to experiment with one more theme very soon...
