Tom1 wrote on Tue, 11 March 2008 11:04More on this: The ProgressIndicator starts working OK if ProgressIndicator::Percent(true); is called to enable viewing of percentage of total completed.

I guess this should be looked at by somebody who knows about the internals, but for me this is not a high priority issue as I can accept having the percentage value visible.

// Tom

Can you post a testcase? E.g. in theide, it seems to work.

Requires more investigation.
