now here's improved code that crashes.

unimportant code macro'ed out.

line 185: socket(AF\_INET, SOCK\_DGRAM, IPPROTO\_UDP); //if commented, it does not  
crash

    throw std::string("throwing");

line 207: l2();

line 283: thrd.Run(callback1(ss, &cls::l1, (void \*)NULL));

line 299: test().Runn();(runs upwards)
