Subject: How do I correctly acknowledge Ultimate++
Posted by Tom1 on Wed, 16 Apr 2008 09:34:12 GMT

Hi,

I have developed a software package using Ultimate++ and I'm about to release it (a binary package) under a commercial license. However, I am not a lawyer, so I think it's best to ask you directly how do I correctly acknowledge Ultimate++?

Do I have to print the entire Ultimate++ license or is it enough to write:

"The ... software package uses Ultimate++ libraries."
