I've updated the Skin.cpp file. Somehow I missed ViewEdge_Write.

Edit: Also added MenuBar::Style. It's possible I've missed some more, I'm using the Upp parser which still has issues with some of the source files for instance this:

```
static ColorF xpmenuborder[] = {  
    (ColorF)3,  
    &SColorShadow, &SColorShadow, &SColorShadow, &SColorShadow,  
    &SColorMenu, &SColorMenu, &SColorMenu, &SColorMenu,  
    &SColorMenu, &SColorMenu, &SColorMenu, &SColorMenu,  
};  
completely borks it.
```
