forlano wrote on Fri, 18 April 2008 01:29Hello,

I'm trying to use an external library made by a COM object.
This is the first time I face such animal. It seems I must register it in some way. I remind to have seen a discussion about this topic in the past but I cannot find it with the search function.
In particular I would like to know if I can import it and how. In visual C++ the command seems to be

Many thanks,
Luigi

Is this http://www.ultimatepp.org/srcdoc$Core$DLI$en-us.html
what I am looking for a COM object?

Luigi
