Subject: Re: Multithread build problem with MySql
Posted by aplatypus on Wed, 08 Mar 2006 13:50:03 GMT

Hi folks ...

Yes Ultimate++ is a wonderful concept. It still abides from C++ linkage rules (unfortunately). I've been reviewing posts about this problem because I want mySQL with minGW. My preference is to use U++.

ANyway I'm collecting information here:

SQL_mySQL reference problems http://www.arilect.com/upp/forum/index.php?t=msg&th=393&start=0&S=61921816059e4353a4b2cd3b6754ee2d

... see you over there ...
