Where is demowin1 from archive ?
Nice to have one more article about U++. Have anyone entire article? In english maybe...
U++ is compared with Boost, I think U++ isn't make heavy usage of templates like boost libraries and isn't so generic-programming oriented. Compared with wxWidgets, also U++ use macros for some parts of code but not like wxWidgets use them(for messages map), macro means every instruction passed to preprocessor, no? So at the end every #include is a macro...
