fudadmin wrote on Wed, 08 March 2006 13:19.NET is framework. But "Visual Studio" is a development suite.

I see logical that

"TheIDE" + "upp libraries"="Ultimate++ framework"

where

"TheIDE" ="development suite"

...?

Yes, but if Qt is framework?

Actually, whatever. I have no problem using "framework" instead of "platform". Maybe it is indeed more correct. I will gradually fix all references...
