Subject: Re: Cannot get modal owned window Posted by indiocolifa on Tue, 29 Apr 2008 15:08:43 GMT View Forum Message <> Reply to Message

Perfect, with Execute() seems to work.

Now what I want is to get the parent window size to resize the opened window accordingly.

I'm getting ACCESS VIOLATION trying to do:

```
void CaseExp::Activate()
{
   SetFrameRect(0,0, GetParent()->GetSize().cx - 10, GetParent()->GetSize().cy - 10);
   WithCaseExpLayout<TopWindow>::Activate();
}
```

IDeas?
