-ScrollBar::ScrollBar() {
+ScrollBar::ScrollBar()
+: style(NULL)
+, pagepos(0)
+, pagesize(0)
+, totalsize(0)
+{
  minthumb = 16;
- pagepos = pagesize = totalsize = 0;
  linesize = 1;

?

Same for ArrayCtrl, RichTextView, TopWindow, Ide, Browser....

Mirek

I personally would move all initialization of members into initialization lists, if I understand you correctly.

OK, I will be thinking about it, although I do not find it particulary atractive... Anyway, for now, I just wanted to clarify the problem:)
