Speaking about disk storage, I did find also the problem of disk space 2 weeks ago; for that
reason I started to erase old builds when adding news ones. Maybe it's really a quota problem.

Strange, I have just checked, it was at 350MB used and 750MB free.

Readjusted to 1400MB free....

Mirek

Really strange... when the problem arose, folder had some 30 64 bit builds plus 5-6 32 bit builds,
so about 400 MB maximum.
BTW, how many 'previous' svn releases do you think it'll be wise to keep ?

Max
