mr_ped wrote on Tue, 03 June 2008 04:21How far are we from 2008 release? I think the progress with valgrind/mingw/allocator was too big to go for RC straight away from beta2, so I suggest beta3. If there's any bigger change pending, it should be done ahead of b3, as it will be changed a lot anyway.

I believe we are now really close. I have just finished the very last feature...

Sorry for delays, some of them were maybe a little bit irresponsible. Most of them were however caused by new ubuntu....
