nixnixnix wrote on Thu, 29 May 2008 14:33Hey Daniel,

I use very large grids and I'd like my users to be able to copy and paste the whole thing to excel or openoffice. Would it be a lot of work for you to add a CopyAll() function which would look at the current size of the grid and copy everything in it (text and values) to the clipboard please?

Nick

Done. I added Copy(bool all) and CopyAll(). If all is not true only selected cells are copied to the clipboard.
