---

I just compiled UPP from SVN on Linux 64bit (Gentoo)  
(using modified make files i found in forums  
[using pkg-config instead of hardcoded values] )

So everything compiled fine (one could claim  
however when i start ide, all text is just set of lines.

has anyone else experienced the same ?

(BTW im running ide directly from out folder)

Edit:

Added ScreenShot
