Subject: Minor fixes (for rc3...) Posted by mirek on Sun, 13 Jul 2008 21:34:43 GMT View Forum Message <> Reply to Message

- fixed problem with default "Static link mode" in linux (despide being set "Shared link mode"

- "recent change" underlines in package are now limited to files newer than ConfigFile("version"). This way, all u++ sources are not underlined just after the install
