I'm sure the "COPYING", nor "Copying" file is not there.
(https://upp.svn.sourceforge.net/svnroot/upp/trunk/bazaar/Uni tTest++/COPYING I mean, this is the current trunk, right?)

I will commit them back, and Mirek should solve his problems with obsolete file system ... maybe operating system too *grin*.

edit:
I will not commit them, I'm getting 403 Forbidden, I will look into that later. :/
