Ops, you are right. Should be:

```
void  AddHead(const T& x)      { bv.AddHead(DeepCopyNew(x)); }  
void  AddTail(const T& x)     { bv.AddTail(DeepCopyNew(x)); }
```

Well, in fact, these methods might be confusing a bit, therefore I usually rather use

`x.AddHead() <=<= element;`

... that is why this error escaped for so long
