hello all. I have an other problems with splitters, layouts and GLCrtl...

here a little example (the same as before )

```
TopWindow a;  
Splitter b;  
Withbug1Layout<ParentCtrl> c;  
Withbug1Layout<ParentCtrl> d;  
CtrlLayout(c);  
CtrlLayout(d);  
b.Vert(c, d);  
a.Add(b);  
a.Run();
```

There is a GLCrtl on the layout like this

```
LAYOUT(bug1Layout, 184, 204)  
ITEM(GLCrtl, dv____0, RightPosZ(12, 104).BottomPosZ(8, 104))  
ITEM(Button, dv____1, LeftPosZ(8, 64).TopPosZ(8, 68))  
END_LAYOUT
```

The problem is : the GLCrtl is not reshaped when i move the splitter bar.

Thanks for your help
