guido wrote on Sat, 26 July 2008 13:06Thank you for your effort!
Works fine as far as I can tell.

I'll use this post to file a bug against upp:
There is a layout glitch in build methods. See attachment.
Also, edit fields height is too large for font size. See the white stripe padded with background
color. Is that intentional?

Which theme do you use? I see 12 different themes on Debian Lenny... and i've tried with some
of them and cannot reproduce this bug.
