thanks all

i did this but there is an error

```
void Download_Manager_Window::progress_indecator(int x, int all)
{
    static int timer = 0;
    static int data = 0;
    progress_bar.Set(x,all);
    timer = clock() - timer;
    data = x - data;
    label_DownloadSpeed.SetText(DblStr((data/timer) * 1.0 ) + " KB/S");

    timer = clock();
    data = x;
}
void Download_Manager_Window::Download_File(String link)
{
    client.URL(link);
    client.Execute(THISBACK( progress_indecator ));
}
```

this is the error

D:\Program Files\MyApps\CISL\main.cpp:57: error: 'progress\_indecator' is not a member of 'Upp::TopWindow'
