Grid now supports summary row:

To enable summary:

```
grid.SummaryRow();
```

Auto calculations:

```
grid.AddColumn("Price").DoSum("Total %` $");  
grid.AddColumn("Length").DoMin();
```

Manual modifying of summary fields:

```
grid.SetSummary(5, "Min size: 10");  
grid.SetSummary(TOTAL, "Total: 200.23");
```

Retrieving summary fields:

```
Value min = grid.GetSummary(5);  
Value total = grid.GetSummary(TOTAL);
```

There is also a new callback `WhenUpdateSummary` called on appending, updating and removing rows.

This update will be committed when I finish cell popups.

PS: I remember all grid requests. They're just waiting in queue
