Reading "the real" BSD license, the only thing I really care about is clause 1 (do not remove copyrights from sources, well, uhm, really, do not remove copyright files from directories). Is there any license like that?

Thinking about it, maybe we can just go PD?

What about beerware

```

 * <phk@FreeBSD.ORG> wrote this file. As long as you retain this notice you
 * can do whatever you want with this stuff. If we meet some day, and you think
 * this stuff is worth it, you can buy me a beer in return Poul-Henning Kamp
