Subject: Re: What license Ultimate++ should use? Tell us!!!
Posted by cbpporter on Mon, 18 Aug 2008 07:35:22 GMT

Quote:Why this poll? Because the current license is not GNU or OSI approved. It's a BSD like license. It's not the official one.
Would distributing it under official BSD license (not just BSD like) make any difference regarding compatibility with GNU/OSI. Sorry, I can't tell by reading the specifications .
