Hi!
I'm try to use U++ 2008.1, and have problems with building SQL_ProgreSQL example.

console output:
>Linking...
>C:\soft\upp\mingw\bin/ld.exe: cannot find -lpq
>collect2: ld returned 1 exit status
>There were errors. (0:11.42)

PostgreSQL ver - 8.3.3
compiler - MinGW

in "Setup \Build methods":
 - into tab "INCLUDE directories" added "C:\Progra~1\Postgr~1\8.3\include"
 - into tab "LIB directories" added "C:\Progra~1\Postgr~1\8.3\lib"

Can you help me?
