Skype Extras has a bunch of plugins for desktop sharing / collaboration.

These look promising (found in the collaboration category):
https://extras.skype.com/1836/view
https://extras.skype.com/1654/view
https://extras.skype.com/907/view
https://extras.skype.com/1590/view
https://extras.skype.com/1672/view (limited to 10 participants)

The multicast VNC may be good, can it leverage other computers to use as proxies?
