Subject: Re: exit() -> heap leaks detected. Posted by captainc on Fri, 05 Sep 2008 22:43:57 GMT View Forum Message <> Reply to Message

Seems with Upp, the right course of action would be to: SetExitCode(1); return; instead of using exit(1);

As we are really in function ConsoleMainFn_(), which is called from main(). hmm, but this doesn't solve library issue.
