Subject: Re: cmdsrv appears to not work
Posted by rylek on Mon, 22 Sep 2008 11:28:55 GMT

Hello!

Sorry for that. Cmdsrv is a very old utility derived from imgsrv as its console counterpart, i.e. a very rudimentary example of a http server. I completely forgot about it over the years and so it was not up to date with some other parts of the Http server hackery. I have just fixed it and sent it to the SVN repository.

Regards

Tomas
