Subject: LineEdit error [BUG]

Hello folks,

I've tried my first CtrlLib project with a LineEdit, and got this error:

D:\upp\MyApps/ctrlLib_t/ctrlLib_t.lay:5: error: 'class Upp::LineEdit' has no member named 'MaxChars'

It showed the *.lay with the marked the line:

ITEM(LineEdit, lineEdit, MaxChars(64).SetFont(StdFontZ(16)).SetFrame(NullFrame()).Tip(t_("hinweis")).LeftPosZ(32, 148).TopPosZ(4, 24))

Indeed 'MaxChars' is not to find in the "CtrlLib\TextEdit.h".

While in "EditCtrl.h" its looking like this:
EditField& MaxChars(int mc) { maxlen = mc; return *this; }

So, maybe LineEdit needs the same one?

Further I won't get back the graphic editor now,

Martin
