```
CONSOLE_APP_MAIN
{
    FindFile fifi("D:/111/*.");
    Vector<String> dirs, files;
    String name;

    while (fifi)
    {
        name = fifi.GetName();
        if (fifi.IsDirectory()) dirs << name;
        else                    files << name;
        fifi.Next();
    }
}
```
