

hello

i want to set some an image to a button

this is the image

i looked at chameleon example but every time the program compiles but it crashes and Windows error (send report / dont send appears)

this is the code

```
Button::Style ImageStyle()
{
    Button::Style s = Button::StyleNormal();
    s.look[0] = imgs::kkk;
    s.look[1] = imgs::kkk;
    s.look[2] = imgs::kkk;
    s.look[3] = imgs::kkk;
    s.pressedoffset = Point(1, -1);
    return s;
}
void ImageSkin()
{
    Button::StyleNormal().Write() = ImageStyle();
}
```

and here

```
SetSkin(ImageSkin);
Button::Style imgsty;
imgsty = ImageStyle();
btn_download_all.SetStyle(imgsty);
```

please help me
