I want to add some controls to splitter bar. Let's say button. What is the easy way?

```
#include <CtrlLib/CtrlLib.h>
```

```
GUI_APP_MAIN
```

```
{ TopWindow w;
```

```
    Button b;
```

```
    Splitter horz;
```

```
    LineEdit ed1,ed2;
```

```
    horz.Add(ed1);
```

```
    horz.Add(ed2);
```

```
    w.Add(horz.Horz().VSizePos(35,35));
```

```
    w.Run();
```

```
}
```
