Simple dialog:

```
struct dlgOptionsGroupList : TopWindow
{
    GridCtrl m_grid;

    dlgOptionsGroupList()
    {
        Title( "Select Groups user belongs" );
        SetRect( 0, 0, HorzLayoutZoom(330), VertLayoutZoom(285) );

        Add( m_grid.SizePos() );

        m_grid.AddHiddenColumn( "ID" );
        m_grid.AddColumn("Inc").Option().Fixed(50);
        m_grid.AddColumn("Group name").Fixed(200);
        m_grid.AddColumn("Group description").Fixed(400);

        m_grid.Add( 1, 1, "Group1", "Descript1" );
        m_grid.Add( 2, 1, "Group2", "Descript2" );
        m_grid.Add( 3, 1, "Group3", "Descript3" );
        m_grid.Add( 4, 1, "Group4", "Descript4" );
        m_grid.Add( 5, 1, "Group5", "Descript5" );
        m_grid.Add( 6, 1, "Group6", "Descript6" );
        m_grid.Add( 7, 1, "Group7", "Descript7" );

    }
};

GUI_APP_MAIN
{
    dlgOptionsGroupList dlg;
    dlg.Run(true);
}
```

there is no ScrollBars, what am i doing wrong ?

Cheers,  
Sasa
