sergeynikitin wrote on Thu, 27 November 2008 23:17:1 try to use method `grid.ColumnWidths("2 12 23");`
Compiling OK.
Linking - Error - Can't find `GridCtrl::ColumnWidth(const char*)`.

I found that I can set width of column with `AddColumn`, and problem is solved, but the unpleasant feeling - left.

Help please.

Most likely - I have curves hands, but suddenly this bug.
Yes, I know that. Last time I tried to fix it I failed. For now please just comment this method in sources.
