Maybe use this code:

```
String s = String("MyProject/src/"+Topic+"$") +  
String(ToLower(LNGAsText(GetCurrentLanguage())& 0xffff));
```

But I use extended form of help request

```
Vector<String> Topic = Split(topic, '#');  
String s = String("MyProject/help/"+Topic[0]+"$") +  
String(ToLower(LNGAsText(GetCurrentLanguage())& 0xffff))+ "#" +String(Topic[1]);
```
