Subject: Problem with GridCtrl: dragging rows

Hello,

I have a problem when trying to drag rows in a gridctrl.
Attached is a small test-app to demonstrate.
If i insert a few lines to the grid, and then try to drag a row - e.g. if i try to drag row 4 one row up - this row always gets inserted as row number 0 (which means it overwrites the header).
The tooltip also says: moving row 4 before row 0

is this my mistake, or an error in gridctrl?

greetings,
Matthias
