Hi, I assume this is the file I need if I want the upp messages (like "Delete" in a GridCtrl when a right click mouse is detected) to appear in Spanish.  
I tried to decompress this .tr file on a GNU/Linux distro but I couldn't, could you post it on a zip or tar format so I can decompress it on GNU/Linux?

I'll also appreciate if you could tell me how do I have to install it

Thanks in advance
