koldo wrote on Wed, 03 December 2008 10:57Hello all

After this first group of functions I want to include in January functions to handle with:

- Change or retrieve window size and position

- Screen capture: Certain window or all the screen
--- Image
--- Video

- Simulate user input
--- Mouse move and click without a mouse
--- Keyboard clicking without a keyboard

Best regards
Koldo
NICE FUNCTION! I'LL BE GLAD TO TEST IT!
