Subject: Program icon
Posted by epichorns on Wed, 25 Mar 2009 21:03:18 GMT

Greetings,
First of all, I must congratulate you guys for developing such a nifty piece of software! I now use it daily to speed develop GUIs and integrate them with high-speed C++ algorithms! The best of both worlds, I'd say!

Question for the wizards out there: it might seem trivial, but I have not had time to investigate this further:
How do I specify the program icon (i.e. how do we specify the executable file icon)?

Thank you for your support!
