During program run the application icon can be set similar in this way:
http://www.ultimatepp.org/src$CtrlCore$TopWindow$en-us.html
(see Icon function).

And this forum post deals with some information connected to executable like version number/etc., also mentioning file icon:
http://www.ultimatepp.org/forum/index.php?t=msg&goto=147 93&

Can't find anything better about your question, so check this and post any problems, maybe somebody else will be able to help further.
