Subject: (Commercial) Upp consulting?!
Posted by JoseB on Mon, 30 Mar 2009 12:23:53 GMT

Hello all,
As far as i understood, Upp is free for use for both open-source, freeware or commercial applications, right?

If I have a little enterprise. I am new in upp but as it is a really good tool, could i some day give consulting in UPP in my country in a commercial point of view.

I mean, can i organize paid trainning sessions and have paid upp tutorials etc?

Please, explain me if i could made that or not.

Thank you

Jose
